Performance Criteria	As described in the relevant OS units

Definitions

Keywords /Terms	Description
Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the knowledge and understanding they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria	Performance criteria are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack(QP)	QP comprises the set of OSs, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.
Knowledge and Understanding	Knowledge and understanding are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual need to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.

	Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
	Core Skills/Generic Skills	Core skills or generic skills are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. In the context of the OS, these include communication related skills that are applicable to most job roles.

fessional Skills Decision Making		
The user/individual on the job needs to know and understand how to:		
SB1. identify problems and need for solutions or interventions by using a	available	
data and feedback		
SB2. evaluate adequacy of information for sound decision making		
SB3. seek further information where required to establish a sound basis	for	
decision making		
Plan and Organize		
The user/individual on the job needs to know and understand how to: SB4. develop a plan for organising small events including exhibitions, fie	Id	

National Occupational Standards

AGR/N7830	Provide agriculture extension services
	SB5. develop a template for event organisation that can be used for planning of various events
	SB6. identify own and organisational capabilities to organise events and seek
	support where there are inadequate in-house capabilities from specialised
	organisations
	SB7. prepare checklists and to do lists for self and others while planning and
	organising tasks and events
	Customer Centricity
	<ul> <li>The user/individual on the job needs to know and understand how to:</li> <li>SB8. identify targeted beneficiary segments and their respective needs in line with organisational purpose and scope of activities</li> <li>SB9. create an engagement and out-reach plan for reaching targeted customer segments keeping in mind their needs, preferences and limitations</li> <li>SB10. identify format and support that will be required when planning events and</li> </ul>
	interventions, bearing in mind practicality, sustainability, needs and limitations of the customer
	Problem Solving
	The user/individual on the job needs to know and understand how to: SB11. identify beneficiary segment problems using reliable and holistic information from various data sources including published data, government records, dat from farmer or Community Based Organisations (CBOs), direct observation and feedback
	<ul> <li>SB12. find a range of viable solutions to these problems through various sources including own experience, published information, other's experience and expertise, expert organisations, think tanks, etc.</li> <li>SB13. select solutions for implementation considering likely impact, limitations,</li> </ul>
	contextual relevance and suitability, priorities and side-effects if any SB14. test solutions through low-risk activities such as limited roll-out, pilots, lab testing, etc. to establish suitability
	Analytical Thinking
	The user/ individual on the job needs to know and understand how to: SB15. analyse the problems faced by beneficiary segments and deconstruct into constituents
	SB16. segregate factors influencing the problem into controllable and uncontrollable categories
	SB17. outline the value chain of activities for various agri-related lines of work and align them into stages based on sequence
	Critical Thinking
	<ul> <li>The user/ individual on the job needs to know and understand how to:</li> <li>SB18. evaluate possible solutions to identify suitable solution based on likelihood o desired impact, limitations, contextual relevance, possible risk, etc.</li> <li>SB19. make commitments and take on work based on evaluation of capabilities and</li> </ul>
	other influencing contextual factors SB20. evaluate need for own and organisational professional capability development based on standard and nature of work to be undertaken to

### **Overview**

This unit deals in detail with the application of basic project management tools to enhance work effectiveness.

Unit Code	AGR/N9914	
Unit Title (Task)	Apply basic project management tools to enhance work effectiveness	
Description	This unit is about conducting demonstration of work skills on-the-job or in a simulated work environment.	
Scope	<ul> <li>This unit/ task covers the following:</li> <li>Define the project</li> <li>Develop the project plan</li> <li>Implement and monitor the project</li> <li>Finalise the project</li> </ul>	
Performance Criteria	(PC) w.r.t. the Scope	
Element Define the project	Performance Criteria         To be competent, the user/ individual on the job must be able to:         PC1.       discuss and agree the key objectives and project scope with the project sponsors or delegating authority	
	<ul> <li>PC2. define project stakeholders</li> <li>PC3. identify how the proposed project fits with the overall vision, objectives and plans of the organisation and stakeholders</li> <li>PC4. seek clarification from delegating authority on issues related to project and project parameters</li> <li>PC5. identify limits of own responsibility and reporting requirements</li> <li>PC6. determine and access available resources to undertake project</li> </ul>	
Develop the project plan	<ul> <li>To be competent, the user/ individual on the job must be able to:</li> <li>PC7. identify and access appropriate project management tools</li> <li>PC8. formulate risk management plan for project, including Work Health and Safety (WHS)</li> <li>PC9. develop the project plan in line with project parameters to achieve project objectives with available resources and constraints</li> <li>PC10. develop projected budget as per the plan</li> <li>PC11. document project plan and projected budget in report and presentation format</li> <li>PC12. discuss and agree on the project plan and budget with the project sponsors and other key stakeholders, making changes where necessary</li> </ul>	
Implement and monitor the project	<ul> <li>To be competent, the user/ individual on the job must be able to:</li> <li>PC13. ensure project team members understand the project requirements; and their roles and responsibilities</li> <li>PC14. implement the project plan, selecting and applying effective project management tools and techniques to monitor, control and review progress.</li> <li>PC15. provide support to project team members, especially with regard to specific needs, to ensure that the quality of the expected outcomes of the project and documented timelines are met</li> <li>PC16. establish and maintain required recordkeeping systems throughout the project</li> </ul>	

	basic project management tools to enhance work effectiveness	
	PC17. implement and monitor plans for managing project finances, resources and quality	
	PC18. complete and forward project reports as required to the stakeholders	
	PC19. put processes and resources in place to manage potential risks arising from	
	the project and deal with contingencies	
	PC20. communicate the progress to the project sponsor, other key stakeholders and	
	project team members on a regular basis	
	PC21. identify any changes required to the project plan and obtain approval from	
	project sponsors and other key stakeholders, where necessary	
	PC22. communicate changes to the team and stakeholders immediately	
	PC23. deliver project objectives on time and within the planned budget	
Finalise the project	To be competent, the user/ individual on the job must be able to:	
Finalise the project		
	PC24. complete financial recordkeeping associated with project and check for	
	accuracy	
	PC25. review project outcomes and processes against the project scope and plan	
	along with the team	
	PC26. confirm satisfactory completion of the project with the project sponsor and	
/	any key stakeholders	
	PC27. evaluate the success of the project, identifying what lessons can be learned	
	and shared	
	PC28. document lessons learned from the project and report within the	
	organisation	
	PC29. recognise the contributions of project team members and share next	
	assignment

	basic project management tools to enhance work effectiveness		
B. Technical	The individual on the job needs to know and understand:		
Knowledge	KB1. project management tools and how they contribute to a project		
	KB2. types of documents and other sources of information commonly used in		
	defining the parameters of a project		
	KB3. the role and key responsibilities of a project manager		
	KB4. key stages in the project life cycle		
	KB5. importance of the relationship between the project manager and the project		
	sponsors and any key stakeholders		
	KB6. importance of agreeing on the key objectives and scope of a proposed project		
	with the project sponsors and any key stakeholders before detailed planning		
	commences		
	KB7. type of information needed for effective project planning		
	KB8. importance of identifying and understanding how a project fits with the		
	overall vision, objectives and plans of the organisation and other projects		
	KB9. what should be included in a project plan, particularly activities, required		
	resources and timescales		
	KB10. importance of discussing and agreeing on the project plan with the project		
/	sponsors and any key stakeholders		
	KB11. importance of briefing the team members on the project plan, their roles and		
	responsibilities and risks and precautions		
	KB12. ways of providing ongoing support, encouragement and information to any		
	project team members		
	KB13. ways of identifying and managing potential risks in relation to the project		
$\backslash$	KB14. importance of contingency planning and how to do it effectively		
	KB15. range of project management tools and techniques to monitor, control and		
	review progress of the project and how to select appropriate tools and		
	techniques		
	KB16. effective ways of communicating with project sponsors and any key		
	stakeholders during a project		
	KB17. processes and resources that can be put in place to manage potential risks		
	and deal with contingencies		
	KB18. type and nature of potential risks identified, and contingencies encountered		
	KB19. project management tools and techniques used to monitor, control and		
	review progress		
	KB20. methods used for briefing, supporting, encouraging and providing		
	information to any project team members		
	KB21. processes for confirming satisfactory completion of the project with the		
	project sponsors and any key stakeholders		
	KB22. processes for evaluating the success of the project and any lessons which		
	have been learned from undertaking the project		
	KB23. importance of agreeing changes to the project plan with the project sponsors		
	and any key stakeholders		
	KB24. importance of confirming satisfactory completion of the project with the		
	project sponsors and any key stakeholders and how to do so effectively		
	KB25. importance of recognising the contributions of project team members to the		
	success of projects		
	KB26. methods used for recognising the contributions of any project team members		
	Note: methods used for recognising the contributions of any project team members		

	to successful projects		
Skills (S)			
A. Core Skills/	Writing Skills		
Generic Skills	<ul> <li>The user/ individual on the job needs to know and understand how to:</li> <li>SA1. write correctly in English or local language</li> <li>SA2. write project reports and make PowerPoint presentations</li> <li>SA3. document and maintain the records as per the company's policy</li> <li>Reading Skills</li> </ul>		
	<ul> <li>The user/ individual on the job needs to know and understand how to:</li> <li>SA4. read project reports and company policy documents</li> <li>SA5. read notes or comments from the supervisor or customer</li> <li>SA6. read and extract relevant information from visitor documentation including identity proofs, introductory letters, documents from or for the organisation, etc.</li> <li>Oral Communication (Listening and Speaking skills)</li> </ul>		
	The user/ individual on the job needs to own and understand how to: SA7. present information clearly, concisely, accurately and in ways that promote understanding		
B. Professional Skills	Decision Making		
	The user/individual on the job needs to know and understand how to: SB1. act within the limits of your own authority SB2. take personal responsibility for making things happen SB3. identify support required and seek support when necessary		
	Plan and Organize		
	The user/individual on the job needs to know and understand how to: SB4. prioritise objectives and plan work to make the effective use of time and resources		
	<ul> <li>SB5. clearly agree what is expected of others and hold them to account</li> <li>SB6. monitor the quality of work and progress against plans and take appropriate corrective action, where necessary</li> </ul>		
	SB7. make effective use of available resources Customer Centricity		
	<ul> <li>The user/individual on the job needs to know and understand how to:</li> <li>SB8. identify the priorities of project sponsor and stakeholder and ensure their concerns are addressed</li> <li>SB9. suggest possible solutions to potential or expressed requirements</li> <li>SB10. create a sense of common purpose with stakeholders, team and self</li> </ul>		
	Problem Solving		
	The user/individual on the job needs to know and understand how to: SB11. apply problem solving skills that require negotiation to resolve problems of a difficult nature within organisation protocols		
	Analytical Thinking		
	The user/ individual on the job needs to know and understand how to:		

SB12. identify the range of elements in a situation and how they relate to each
other
Critical Thinking
The user/ individual on the job needs to know and understand how to:
SB13. recognise changes in circumstances promptly and adjust plans and activities
accordingly
SB14. analyse operational activities to identify potential risks and hazards

# **Criteria For Assessment Of Trainees**

### Job Role: Agri-Clinic & Agri-Business Centre Manager

#### Qualification Pack: AGR/Q7807

### Sector Skill Council: Agriculture Skill Council of India

#### **Guidelines for Assessment:**

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC.

2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.

3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.

4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).

5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/training center based on this criterion.

6. To pass the Qualification Pack , every trainee should score a minimum of 70% of aggregate marks to successfully clear the assessment.

7. In case of *unsuccessful completion*, the trainee may seek reassessment on the Qualification Pack.
